

I GOT LOVE TO SHARE

By Tiffany Daniels

I got love to share
I got ways to always feel you here
I got feelings I want him to bare
Bear it and hug me inside
So what, I have pain u caused in which
I have to reside
That's right, I love you more than a little bit
That's right, You may love me at every spot
your heart hit
Peace and blessings for everything you wish
to live in
That's it Love is too hard to write about
Goodbye...;>
